

Polyester Syntpaper SY-PT664

The Polyester fabric 100% pure, for industrial washing, has mechanical tear resistance as well as temperature resistance. Supplied with a coat treatment on both sides, it allows for clear and quality printing. Its main application is for industrial stone washing, as it supports more aggressive washing without losing its characteristics and the information printed on the label.

Printing

Offset
Transfer
Flexography
Thermal (mixed wax and resin ribbons),
Rotogravure.

Supply

Jumbo coil,
coil cut to desired size

Applications

For industrial stone washing.

Maximum temperature of use:

160 degrees
